

Dr. Peter Salk adds a bottle of the vaccine discovered by his father Dr. Jonas Salk to the *Whatever Happen to Polio?* display in Warm Springs Georgia.

Donate to:

Ann Johnson Heritage Center at Warm Springs

To contribute to this vision for the *Ann Johnson Heritage Center at Warm Springs* that will preserve the story of polio — the disease, the search for a cure, and Rotary’s role in its global eradication — contact the Roosevelt Warm Springs Development Fund at 706-655-5669 or PDG Steve Stanfield: 229-924-9296. The project is expected to have strong support from Polio Survivors & Associates, a Rotary Action Group, as well as from members of the Rotary Heritage and History International Fellowship of Rotarians. Mail check payable to Roosevelt Warm Springs Development Fund, PO Box 1000, Warm Springs, Georgia 31830.

Left to right: Rotary International PolioPlus Division Manager Carol Pandak, D6910 2008-09 Governor Garland C. Moore, Assistant Governor Mary Chapman, D6900 2006-07 PDG Steve Stanfield, and Superior Court Judge James W. Oxendine, a Rotarian and chairman of the Roosevelt Warm Springs Foundation Board. (RI plaque text on page 6.)

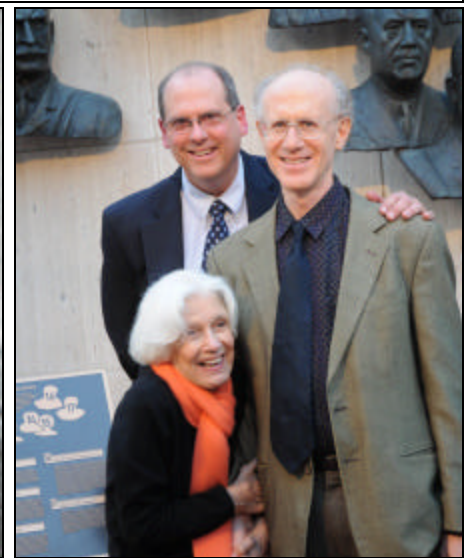

It’s been a busy year since Rotary entered the
Polio Hall of Fame in

Warm Springs

While Rotary Clubs raise funds to push the final inch to global eradication of the crippling disease, *RHHIF* member Ray Taylor, founder of Polio Survivors & Associates Rotary Action Group, is not surprised that some new club members today ask “*what’s po-*

(Left to right) H. Delano Roosevelt (grandson of *Roosevelt Warm Springs* founder Franklin Delano Roosevelt) congratulates Carol Pendak (PolioPlus Division Manager at Rotary’s world headquarters) as *Roosevelt Warm Springs* Executive Director Greg Schmiege looks on immediately following ceremonies inducting Rotary International into the Polio Hall of Fame, November 14, 2008.

Roosevelt Warm Springs Public Relations Director Martin Harmon with Heloisia Sabin (the widow of oral polio vaccine developer Albert Sabin) and Dr. Peter Salk (eldest son of inactivated vaccine developer Jonas Salk) at the Polio Hall of Fame on 11-14-08.
